Template C: Contract Requirements Grid

Instructions: If you delegate any functions, complete this template for those contractual duties. One (1) Template C should be submitted showing all delegated functions to accompany Templates A and B.

Contractors must complete this table to indicate all the contract requirements that are applicable to their Subcontractors or Downstream Subcontractor, depending on the functions that are delegated to the respective entities.

This table also references obligations of the Contractor where delegation must be contractually prohibited. While the Contractor must not delegate contractual duties and obligations where delegation is contractually prohibited, Contractor or Subcontractor or Downstream Contractor may include related contractual requirements in their Agreements. For example, while the Contractor may not delegate the functions of a Compliance Program, they may require Subcontractor and Downstream Subcontractors to maintain their own compliance programs. Regardless of a Contractor’s system of delegation, Contractor remains obligated to ensure performance of all duties and obligations under the contract.

Fully Delegated Subcontractors must comply with all contractual requirements. Partially Delegated Subcontractors and Downstream Partially Delegated Subcontractors, and Administrative Subcontractors and Downstream Administrative Subcontractors must at minimum comply with requirements outlined in Exhibit A, Attachment III, Subsection 3.1.6.B (Subcontractor and Downstream Subcontractor Agreement Requirements).

Additional requirements may apply depending on the nature of the function or functions delegated. For example, if a Subcontractor delegate claims processing to an Administrative Downstream Subcontractor for this function, the Administrative Downstream Subcontractor must comply with Exhibit A, Attachment III, Subsection 3.3.5 (Claims Processing) for all requirements related to timely processing of claims.

Delegating functions or including contractual provisions in Subcontractor Agreements or Downstream Subcontractor Agreements does not absolve the Contractor of ensuring compliance of the Subcontractors or Downstream Subcontractors.

(1) *Must not be delegated:* These rows reference contractual requirements associated with functions for which delegation is contractually prohibited. While the Contractor must not delegate contractual duties and obligations where delegation is legally or contractually prohibited, Contractor may include related contractual requirements in the Subcontractor Agreements. For example, while the Contractor may not delegate the functions of a Compliance Program, they may require Subcontractor and Downstream Subcontractors to maintain their own compliance programs.
