

## Chiropractic Services (Optional Benefit)

### Benefit Coverage

Medically necessary chiropractic services, for example, are covered up to 30 visits per calendar year\* for routine chiropractic care when provided by an American Specialty Health Group, Inc. (ASH Group) participating provider. An initial examination and subsequent office visits are covered as well as adjustments and conjunctive therapy specifically for the treatment of neuromusculoskeletal disorders. X-rays are also covered and must be determined as Medically Necessary by American Specialty Health Plans, Inc. (ASH Plans).

A referral from the member's Blue Shield HMO Personal Physician is not required. The ASH Group provider will refer the member to the Personal Physician for evaluation of conditions not related to neuromusculoskeletal disorders and for evaluation of non-covered services such as diagnostic scanning (CAT scans or MRIs).

ASH Plans must determine all subsequent services as Medically Necessary except the initial examination and emergency services by an ASH Group provider.

One brief re-examination is covered for each treatment program.

\* Some plan visit limits may vary. Refer to the member's EOC for details or call ASH Plans at (800) 678-9133.

### Copayment

See the member's *Evidence of Coverage (EOC)* and *Summary of Benefits and Coverage* for member copayments.
